

Enabling Layer Themes

Layer themes are sets of layers that share a common theme. Layers within each set can be turned on all at once when the theme is enabled. To see the list of layers within each theme, [Access it Here](#). Follow the steps below to enable themes.

The screenshot shows the GIS-NET web application interface. The top navigation bar includes the GIS-NET logo, the text "Planning & Zoning Information for UNINCORPORATED L.A. County", a search bar with the placeholder "Enter AIN, Address, Intersection, Owner Name, ...", and a "Sign in" button. Below the navigation bar is a menu with "Navigation", "Find", "Draw", "Measure", "Tasks", "Links", and "Help". The main interface features a map of Southern California with various layers overlaid. On the left side, there is a "Welcome to GIS-NET!" section with "Recent Updates" listed under "January 2025" and "December 2024". At the bottom left, a "Layers" button is highlighted with a red box, and a blue box with the text "1. Go to the 'Layers'" has an arrow pointing to it. The bottom right corner shows the scale "Scale 1: 1,155,581" and a scale bar.

Welcome

I want to...

Welcome to GIS-NET!

Recent Updates:

- **January 2025:**
 - Added recent 2025 Fire Perimeters to the Major Fires layer (under Hazards folder), we will continue to update as new data is available (for Eaton, Hurst and Palisades).
 - Updated the SB 9 Theme (which can be found at the top of the Layer List and for Parcel Profile Report), based on changes to how the Fire Hazards are mapped. Please refer to this [TPZ Blog Post](#).
- **December 2024:**
 - Added 'Adopted and Effective Dates' and 'Ordinance #' to the Zone Change (for major plan updates) layer.
 - Added Bridge and Franklin Fire DINS (Damaged Structure) layers under Hazards/Fire folder. Fire Perimeters for both incidents now available within Major Fires layer.
 - Following the annexation to the City of Whittier from West Whittier - Los Nietos, the following layers were updated:

The screenshot shows the GIS-NET web application interface. At the top, there is a search bar and navigation tabs. Below the search bar is a toolbar with icons for home, zoom in, zoom out, pan, full extent, previous extent, next extent, and bookmarks. The main area is a map of Los Angeles and surrounding areas, with a blue outline indicating a specific region. On the left side, there is a 'Layers' panel with a 'Hamburger' icon (three horizontal lines) at the top. A red box highlights this icon, with an arrow pointing to a blue callout box that says '4. Click the "Hamburger" icon'. Below the 'Hamburger' icon, the 'Show Legend' option is highlighted with a red box, with an arrow pointing to a blue callout box that says '5. Select "Show Legend"'. The 'Show Legend' option is described as 'Display the legend for visible layers'. Below it, the 'Change Layer Drawing Order' option is visible, described as 'Change how layers are stacked on the map'. A list of layers follows, each with a checked checkbox: Administrative Layers and Districts, Environmental Resources, Grids, Hazards, Housing, Land and Building Outlines, Land and Water Features, Permit Activity, Projects/Other, Safety, Scanned or Historical Images, and Topography. At the bottom of the map, there is a scale bar showing 0, 10, and 20 miles, and a scale of 1:1,155,581. The bottom right corner of the map area contains the text 'LA County | DRP | County of Los Angeles, California State Parks, Esri, TomTom, Garmin, SafeG'.
